

ProBlocks

Building Better Businesses. **Simply.**

BizTalk

ProBlocks

ProBlocks provides a complete operational and job cost overview to both Project and Finance management groups allowing them to effectively control and deliver projects in any project or time-based industry.

Key Features

- Timeline
- Sub Projects
- Tasks and sub tasks
- Resources
- Goods to be delivered
- Progress monitoring
- Employee workload calculated on all projects in the system
- Invoicing
- Project budgets and post project calculations compared to the original budget

Contract Management

- Invoicing based on time or as a fixed price for a project
- Automatic re-invoicing, e.g. of service contracts
- Overtime handling
- Invoicing of time based on task type or competence
- Expense tracking
- Contracts creation based on templates, streamlining entry, but not required.
