ReportBlocks

ReportBlocks gives the ability to run Crystal Reports within SAP Business One. Built from the ground up with ease-of-use and customer needs in mind, ReportBlocks is the perfect balance of price and power. As the global standard in report writing software, Crystal Reports has established itself as a must-have product for any company wishing to get the most out of their ERP system. With ReportBlocks we make this easier than ever by integrating your reports with Business One. No more switching back and forth. No more complicated set up. A simple, wizard-driven, report definition process will have you printing your Crystal Reports in no time.

Benefits

- Wizard-driven interface allows for fast and simple report setup
- Attach a query to any menu for easier access
- Add buttons to a screen for even faster access to reports
- Print any Crystal Report within Business One
- Over-ride marketing documents with a Crystal Form
